January 2018 - March 2018
Spa Concierge @
The Grand America Hotel
October 2015 - January 2018

applications built

SK8

Front End Developer
A web application that allows users to create a profile and share skating tricks with other skaters in their area.
I used Javascript, JSON, jQuery, AJAX calls, HTML, CSS, Materialize, the Geolocation API and the Google Maps APIs.
https://stark-savannah-69359.herokuapp.com/

AVENGERS ASSEMBLER

Front End Developer
A web application that connects users to information regarding their favorite Avengers Characters.
I worked on a team, and was responsible for the front end development of the character pages., and all mobile responsiveness. Using HTML, CSS, Bootstrap, Javascript, and the IMBD/OMBD API.
https://clickomat.github.io/goonies/

CRYSTAL COLLECTOR GAME

Full Stack Developer
A web application game that allows users to click on crystals to try to add up to a randomized number.
I used HTML, CSS, Javascript, and jQuery.
